Congress Passes Dog Training Pilot

Program: The Senate passed VFW-supported [H.R. 1448](#), the *PAWS for Veterans Therapy Act*. This legislation would establish a pilot program on dog training therapy for veterans diagnosed with PTSD and require VA to provide service dogs for those veterans, including veterinary insurance. In recent congressional statements for the record submitted to both the House and Senate Committees on Veterans' Affairs, VFW National Legislative Service Deputy Director Tammy Barlet noted that studies and anecdotal evidence indicate veterans diagnosed with PTSD who have service dogs experience increased participation in social settings and overall satisfaction with life. The bill, which passed the House in May, now heads to the president's desk for signature.

Senate Passes Bill to Assess VA Benefit

Disparities: The Senate passed VFW-supported [S. 1031](#), which would require a study on disparities associated with race and ethnicity with respect to certain benefits administered by VA. The Government Accountability Office would be tasked with assessing disparities in compensation benefits, with particular focus on disability evaluations based on pain and rejection of fully developed claims. Understanding race and ethnic disparities and correcting those wrongs within VA can help ensure all veterans are properly compensated for their injuries.

VFW National Home for Children: The National Home was founded in 1925 as a place where the families left behind by war could remain together. Today's families face many different and difficult circumstances, so the National Home has evolved to help meet those needs. The community is open to the families of active-duty military personnel, veterans, and relatives of VFW and VFW Auxiliary members.
