1. VA to Implement Appeals Modernization Act Next Week: Beginning Feb. 19, all veterans who disagree with their VA rating decision with have three new options to resolve their benefit dispute: request a higher-level review from a more experienced person, submit a supplemental claim with additional evidence, or appeal directly to the Board of Veterans’ Appeals. Over the past two years, the VFW worked closely with VA and other veterans’ organizations to craft this new framework, which was authorized by the VFW-supported Veterans Appeals Improvement and Modernization Act of 2017. The goal of the new system is to offer veterans greater flexibility and transparency to resolve benefit disputes in a timely manner, instead of waiting years for VA to adjudicate their appeals. Read more about appeals modernization. For assistance appealing a decision on your benefits claim, contact a highly trained and accredited VFW service officer.

2. Military Family Housing Horrors: Testimony from three military spouses Wednesday before a joint hearing of the Senate Armed Services Subcommittee on Personnel, and Subcommittee on Readiness and Management Support revealed military family housing horrors ranging from insects and rodents to asbestos and lead-based paint. Testimony was also given by five company CEOs and/or presidents, who collectively manage some 200,000 family housing units throughout the military; and four assistant DOD, Army, Navy, and Air Force secretaries, who are responsible for installation oversight. To the VFW, the dismissive attitude of housing contractors and installation commanders, who may have thought their days of listening to housing complaints were over when the military signed 50-year contracts with civilian management companies in the mid-1990s, was egregious. It was clear from testimony and ensuing Q&A sessions that all military installation commands must take an active role in contract fulfillment, oversight and customer satisfaction, and families need an effective forum to communicate their issues with housing authorities and installation commanders without fear of retribution. The VFW will continue to monitor this issue to ensure the military and their contractors make good on their pledges to perform and communicate better. Read testimony or watch the hearing, which begins at the 18:30 mark. If you, or anyone you know is affected by unacceptable housing conditions, please email the VFW at vfwac@vfw.org.
3. **Veterans Groups Say $103 Billion in VA Funding Needed for FY 2020:** This week, the three coauthors of The Independent Budget (IB) — the Veterans of Foreign Wars of the U.S., Disabled American Veterans, and Paralyzed Veterans of America — released the IB’s fiscal year (FY) 2020 budget recommendations for VA. The IB coauthors recommend a total of $103.3 billion to ensure VA begins to fully and faithfully implement the VA MISSION Act of 2018, make needed improvements, and is able to timely deliver benefits and services to wounded, ill and injured veterans, their families and survivors. 4. **VFW Attends Secretary of the Army Roundtable:** On Thursday, VFW Director of National Security and Foreign Affairs John Towles joined the Secretary of the Army Mark Esper and senior Army officials to discuss the department’s priorities for FY 2020, how to improve benefits and care for our nation’s service members and their families, and the future of Arlington National Cemetery. Additional topics of discussion included the need for a robust and strategically driven FY 2020 budget, the success and expansion of the Military Health System GENESIS across military treatment facilities within the Defense Health Agency, an Army Accessions Command modernization update, an overview of current Army operations occurring worldwide. Towles provided feedback to Secretary Esper concerning proposed changes to eligibility for burial at Arlington National Cemetery. 5. **VA to Implement High Tech Training Program:** In anticipation of launching the Veteran Employment Through Technology Education Courses (VET TEC) program in April, VA is seeking training providers to help implement this new training course. The VET TEC program will provide training on information technology, computer software, information science, media application, data processing and computer programming fields. The VET TEC program was part of the VFW-supported Forever GI Bill that made sweeping reforms to education and training programs for veterans. [Learn more or apply for the VET TEC program](#).

6. **VA to Receive Three New Fisher Houses:** VA announced yesterday that it is scheduled to receive three new buildings from the Fisher House Foundation. The new facilities will be located in Ann Arbor, Mich., Aurora, Colo., and Omaha, Neb. The Fisher House Foundation donates housing facilities to VA and the military to act as a “home away from home” for active duty military, veterans, and their families when receiving treatment at a VA medical facility or major military installation. These facilities are located within walking distance from treatment facilities and provide cost-free housing. Currently, there are 80 Fisher Houses around the world — 38 are located next to VA facilities. An expansion from 38 to 64 is planned over the next few years. [Read more about VA Fisher Houses](#).
