1. VFW Demands End to Widow’s Tax: The Senate recently passed the National Defense Authorization Act for Fiscal Year 2020 by a vote of 86-8. The bill, which must still be conferenced with the House of Representatives, provides $750 billion in total defense spending, a 3.1 percent military pay raise, and reforms the Military Housing Privatization Initiative for military families, among many other enhancements. Sadly missing, however, was one bipartisan amendment that would have finally ended a dollar-for-dollar offset that continues to financially penalize some 65,000 military widows and widowers from simultaneously receiving Survivor Benefits Plan (SBP) payments from the Defense Department and Dependency and Indemnity Compensation (DIC) from the Department of Veterans Affairs. In an opinion editorial published Sunday in The Hill, VFW National Commander B.J. Lawrence called out the Senate for not including the amendment, saying that Congress is balancing “the budget on the back of the widows and orphans, which is a disgrace.” He said “surviving spouses and veterans [like VFW Life member Jeremy Kitzhaber] do not have the luxury of waiting for Congress to do its job. The VFW again calls on all of its members and advocates to demand Congress end this injustice now.”

2. VA Orders Stay on Blue Water Navy and Korean DMZ Claims: In a memorandum dated July 1, Secretary Wilkie stated that all Blue Water Navy claims, claims based on service in or near the Korean Demilitarized Zone, and claims for children of veterans with spina bifida will be held from being processed until Jan.1, 2020. The VFW encourages veterans and surviving spouses to file claims now. Contact a VFW Service Officer.

3. House Defense Authorization Bill Would End Widow’s Tax: Today, the House passed H.R. 2500, the National Defense Authorization Act for Fiscal Year 2020 (NDAA) that authorizes $733 billion in defense spending, a 3.1 percent pay increase for all military personnel. The legislation includes a number of VFW-supported provisions that improve the quality of life for our service members and military families, to include the termination of the demeaning dollar-for-dollar offset of earned benefits for the surviving spouses of about 65,000 service members and veterans who made the ultimate sacrifice, known as the Widow’s Tax; repeals the Feres Doctrine to ensure the Military Health System is held accountable for malpractice; provides $9.2
million for construction and improvement of military family housing; authorizes a $1,000 reimbursement increase for military spouses to obtain professional certifications and licenses after a PCS change; and authorizes financial assistance to civilian child care providers who care for the children of members who die in the line of duty. The VFW is also pleased the legislation would also direct DOD to review the service records of World War I minority service members who were appropriately recognized for their valorous service, but denied the highest service medal because of racial bias. The NDAA now heads to conference to resolve the differences between the Senate and House versions.

4. Affordable Mortgages for Veterans Act Headed to the President: On Tuesday, the House of Representatives passed H.R. 1988, the Protecting Affordable Mortgages for Veterans Act of 2019. The legislation corrects an unintended consequence of a previous law that prohibits veterans from refinancing their home loans within the first six months to combat a tactic by predatory lenders known as “loan churning” in which veterans are convinced to refinance their home mortgages, and fees and other expenses are often added. Introduced by Rep. David Scott, (D-Ga.), and Rep. Lee Zeldin (R-N.Y.), H.R. 1988 would approve approximately 2,500 refinanced loans that were being processed when the law was implemented, but could not be completed because of a technical error. Last month, the Senate passed an identical bill, S. 1749, which was introduced by Senator Kyrsten Sinema (D-Ariz.), and Tom Tillis (R-N.C.). Since both bills are identical, H.R. 1988 now heads to the president’s desk. Learn more.

5. U.S. and Chinese Navies Discuss South China Sea Escalation: On Tuesday, the Chief of Naval Operations Adm. John Richardson met via teleconference with China’s People’s Liberation Army Navy Vice Adm. Shen Jinlong to discuss the importance of open communication between our two countries due to increased military presence in the South China Sea. Tuesday’s teleconference was the fourth between the two military leaders and comes on the heels of a $2.2 billion dollar U.S. weapons sale to Taiwan, which was approved by the U.S. State Department on Monday. Since 1979, the U.S. has recognized Taiwan as a part of mainland China. However, the U.S. Department of State has maintained an unofficial relationship with Taiwan, including a long standing commitment to assist Taiwan with assistance and material support to bolster its defensive capabilities.

6. House Holds Hearing on Economic Opportunities for Women: This week the House Veterans’ Affairs Subcommittee on Economic Opportunity held a hearing to discuss the different ways women veterans are affected by different programs throughout VA. In some areas such as education and employment, women veterans are represented more favorably than non-veteran women and male veterans. However, there are areas where women veterans are underserved such as veteran homelessness programs. Women veterans have been the fastest growing population of veterans for years, and special attention must be paid to their specific needs. Watch the hearing.
