1. Veterans Day in Washington: On Monday, VFW National Commander William “Doc” Schmitz and VFW Auxiliary National President Peggy Haake, along with several other VFW members, participated in the National Veterans Day Ceremony at Arlington National Cemetery by laying a wreath at the Tomb of the Unknown Soldier. The Veterans Day Ceremony keynote speaker was Vice President Michael Pence. Following the ceremony at Arlington National Cemetery, the VFW contingent laid a wreath at the Vietnam Veterans War Memorial. The VFW is proud to participate in these events so that we may continue to honor all veterans who have served our great nation.

2. Deborah Sampson Act Passes in the House: On Wednesday, the VFW-supported H.R. 3224, Deborah Sampson Act, which would expand the availability of women’s health services at VA to include expanding and improving counseling and treatment services for women who have experienced sexual trauma and providing training on women veterans health care providers, was passed in the House. The Senate version, S. 514, still awaits consideration by the full Senate. The legislation takes a forward-looking focus by examining changes VA must implement to improve services for women veterans. 3. House Passes Multiple Veteran Bills: This week, the House overwhelmingly passed more than a dozen veteran-centric bills. “It was good to see the House come back after Veterans Day and immediately pick back up working for veterans,” said VFW National Legislative Service Deputy Director Pat Murray. The bills passed improve education benefits, address VA overpayment issues, and address gaps for rural and underserved veterans. The VFW urges the Senate to quickly pass important VFW-supported legislation still awaiting Senate consideration. Read the press release.

4. House Holds Hearing on Disinformation on Social Media: This week, the House Committee on Veterans’ Affairs held a hearing to discuss the effect of social media disinformation on veterans. Due to the influence they have within their communities, veterans are targeted for scams and propaganda at high rates. While disinformation and other malicious online behavior is on the rise, policing conduct on social media remains incredibly difficult and
more work is needed to guarantee that veterans and their families remain secure. At the hearing, Ranking Member Phil Roe (R-Tenn.) stated, “We want to shed light on the issues impacting veterans, help them understand the risks associated with using social media and direct them to resources to empower them to protect themselves and their families online.” Watch the hearing.

5. Some Veterans Will Not Have Access to Military Installations by Jan. 1, 2020: The Purple Heart and Disabled Veterans Equal Access Act of 2018 expanded eligibility for commissary, military exchanges, and morale, welfare and recreation (MWR) services to include Purple Heart recipients, former prisoners of war, and veterans with VA documented service-connected disability ratings of 0-90 percent. Veterans who are 100 percent service-connected already had access to commissary and MWR services. Eligible persons will need to have a Veteran Health Identification Card (VHID) from VA in order to gain entry to Department of Defense and/or Coast Guard installations. Those who are covered under this act and do not have a VHID will not be allowed access to the installations on Jan. 1, 2020, but will have access to online exchanges and American Forces Travel. Caregiver eligibility will be limited to caregivers who are designated as the primary family caregiver of an eligible veteran under the Program of Comprehensive Assistance for Family Caregivers and will need to show an acceptable credential, along with their eligibility letter.
