Burial Benefits Improvement Legislation

Introduced: Sens. Jerry Moran (R-KS) and Mazie Hirono (D-HI) introduced [S. 4100](#), *Honoring Veterans' Legacies and Burial Benefits Enhancement Act*. This bill aims to preserve veterans' legacies for posterity, upgrade burial benefits for certain decedents, and establish a nonprofit entity enabling private donations, rather than tax dollars, to fund Veterans Legacy Program grants. Grantees would conduct historical research on veterans buried in national cemeteries and share their findings with the local communities through educational outreach programs. This legislation would also ensure dignified interments and enhance burial benefits for eligible family members and Medal of Honor recipients, regardless of service era.

VA Mobile App Surpasses Two Millionth

Download: More than two million users have downloaded the VA Health and Benefits mobile app. This tool empowers veterans to access their health care and benefits information from anywhere on their mobile devices. Features include the ability to manage health care appointments, view the status of benefits claims and appeals, read benefit decision letters, refill and track prescriptions, and locate VA facilities. It also provides quick and direct access to the VA Crisis Line for immediate care. VA plans to add health care appointment scheduling to the app this year. [Get the app.](#)
